Real Quality, Value & Style
The Real Deal for your bathroom

July to December 2017

Real value, style and long lasting quality

Dear Bathroom Buyer,

Choosing your new bathroom is a really big thing.

A lot of householders change their bathrooms only twice in their lives. That's why it's so important to make the right choices.

This brochure is here to make your choice easier.

With a huge selection of current and classic styles, you can express your own individual style in your bathroom.

You get a better bathroom at a better price.

The Real Deal is what you get with this brochure. This means that you get 'Real Quality' at prices that offer 'Real Value'. Quality really matters in your bathroom and whilst you may find many other offers of good prices in the search for your bathroom, these products may not offer you the same quality and features that you will find in this brochure. All products in this brochure are from trusted brands that give you the beautifully finished bathroom you want at a price you will love. Please ask in store for expert advice and details on any of the products featured in this brochure.

Hopefully choosing your new bathroom will be a great experience for you!

Curve 600mm washbasin
with tall pedestal, tall close
coupled WC and seat

For many it's easier
getting off a tall loo

No more stooping
over a basin!

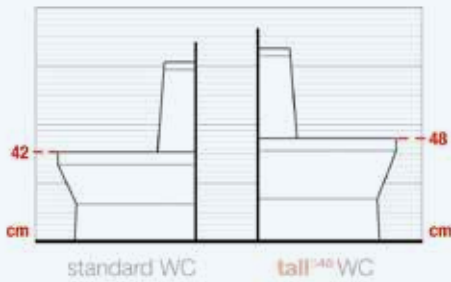

Could tall sanitaryware benefit you?

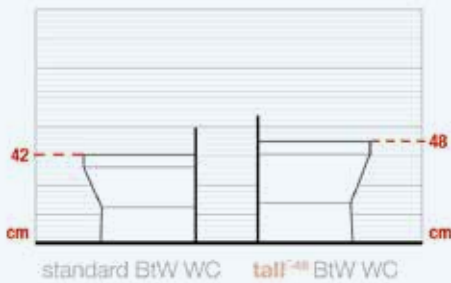

In Europe the height of an average male has increased by 15cm in the past 130 years. The average knee height has increased by an estimated 6cm, therefore Britton have created a range that's 6cm taller than average sanitaryware.

Higher sanitaryware not only helps taller people, but also if you're older or have any other specific needs. It's far easier getting on or off a loo that's 48cm high rather than one that's 42cm. Tall sanitaryware can be mixed with standard height sanitaryware to suit your needs.

Wetrooms

Luxury at prices you'll love...

Wetrooms and Walk-ins give your bathroom something innovative and unique, providing you with a high quality look for less than you'd think.

So what's the difference between a "Wetroom" and a "Walk-in"? Both Walk-ins and Wetrooms use the same glass panels and fixing kits, but with a Walk-in the glass panels sit on top of a shower tray, whilst with a Wetroom the glass panels sit directly onto a tiled floor within a "wet area".

In this section you'll find Aqua4ma, which is the perfect solution if you're looking at a Wetroom. It's advised you install a waterproofing system like Aqua4ma underneath your tiles in the wet area, to protect against leaks.

Three outstanding reasons to choose a Real Deal wetroom or walk-in:

1. Minimalist style that gives a premium look
2. Many options to tailor to your taste or requirements
3. A huge array of quality features, giving you long lasting functionality.

Waterproofing Systems

Dreaming of a wetroom?

Make this dream reality with Aqua4ma's waterproofing system. Aqua4ma is a wall & floor cladding system that is installed under your tiles, giving you 100% protection against leaks.

100% Waterproof

Aqua4ma is a revolutionary wall and flooring system that is 100% waterproof and provides the basis of the ultimate wetroom or shower enclosure.

Strong and Easy to Install

This unique system makes use of rigid UPVC panels that are extremely strong and easy to install.

Fully Tileable Surface

The surface of Aqua4ma is suitable for all types of tiles to ensure the shower can be finished to the highest specification.

Easy to Choose

Step 1 - choose a Floor4ma shower base or Linear Deck Kit that suits your enclosure or wetroom size.

Step 2 - Decide how much of your wall and floor you wish to be protected and choose the Aqua4ma wall & floor panels to suit this size.

Easy & Quick to Install

Requiring only basic DIY skills to fit, Aqua4ma is easy and quick to install. Watertight joints between panels and trays are created using a "solvent weld" process. The solvent is applied in the join, which physically welds the pieces together, bonding them so they become one.

3 ways to use Aqua4ma

These images show the Linear Deck Kit and Aqua4ma floor and wall panels. The Floor4ma Shower Deck Kit can be used in the same way as the Linear Deck Kit.

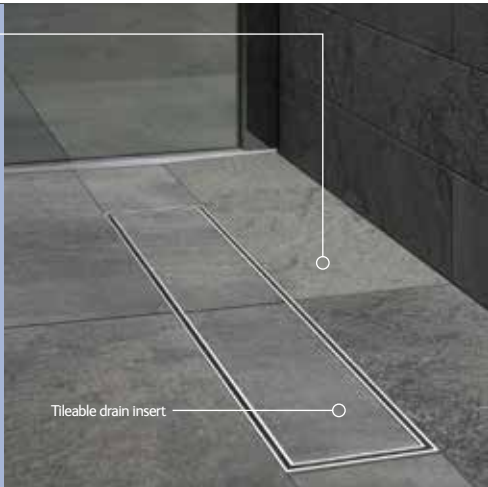

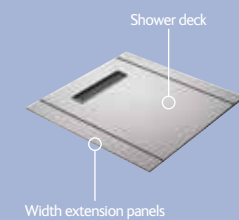

Deck Kits

Aqua4ma Deck Kits can either be used on their own as a Wet Tray, or combined with the Aqua4ma Wall and Floor Panels to create a wet room.

Linear Deck Kit

A modern sleek base option where, both base surface and drain insert are tileable. The built-in fall ensures water drains away and out of the stylish linear waste.

Floor4ma Shower Deck Kit

With a tileable surface and built-in fall to the waste, it's the perfect base for your wetroom or shower area.

Floor4ma Shower Deck Kit

Comprises; metal under tray, Top4ma shower deck, waste, and 1 x 300mm tube of grabber.

Wall and Floor Panels

Aqua4ma Wall and Floor Panels are used with a deck kit to turn your bathroom into your dream wet room.

Wall & Floor Panels

This versatile cladding board has two functions to create your 100% waterproof area:

- 1 Fit on the walls behind your tiles.
- 2 Extend the wet area on your floor beyond the Aqua4ma base kit.

Zamori Shower Trays

Here are why Zamori trays are so good...

Features & Benefits

- 35mm high shower trays for that contemporary look
- Flexible installation trays can be fitted on, sunk into and above the floor
- High quality acrylic finish
- A huge variety of sizes
- Legset & Panel Kits available

Anti-Slip

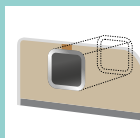

The Zamori anti-slip option features the highest possible antislip rating. The antislip surface is embedded into the tray material during the manufacturing process. This gives a high quality look and feel compared to most other antislip trays, where the antislip surface is applied after production.

Antibacterial

All Zamori trays are impregnated with a bacteria and mould fighting "Zemoic" agent. The antibacterial property of Zamori trays means increased hygiene and easier cleaning.

Patent Re-inforcement

Zamori trays are acrylic capped and feature a patented steel reinforcement frame within the tray. This ensures strength rigidity and a lifetime of use.

Once you've seen the
benefits of a steel bath you
won't want anything else!

Stays warm

Your bath will heat up faster and feel warm for longer, as steel enamel retains heat.

Award Winning Design

Used by world leading's architects and specifiers. Kaldewei is a highly acclaimed brand and has over 100 design awards.

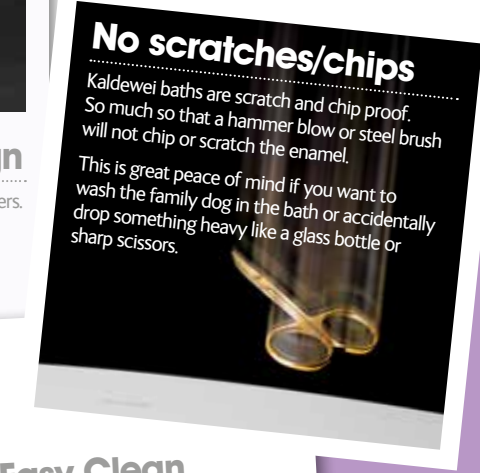

Your Kaldewei bath will match your bathroom as steel enamel looks very similar to ceramic.

Chemical/Fire Proof

Kaldewei baths do not mark/stain from everyday cosmetics or cleaning products. They also won't scorch under flame or ash. Perfect for those of you who love to bathe with a relaxing candle or two.

No scratches/chips

Kaldewei baths are scratch and chip proof. So much so that a hammer blow or steel brush will not chip or scratch the enamel.

This is great peace of mind if you want to wash the family dog in the bath or accidentally drop something heavy like a glass bottle or sharp scissors.

Easy Clean

The special steel enamel is bonded in such a way that it doesn't trap dirt, so you can clean Kaldewei products easily with just soapy water.

Why would you invest in a Clearwater bath?

Strong

The strength in material allows the creation of baths with thin walls that are truly beautiful.

Beautiful

Clearwater baths look exceptional. The materials used allow for a much sharper, more distinctive look which gives a premium finish to a bathroom. Each bath is hand polished for over 10 hours to achieve a super smooth finish. Worth their weight in stone.

Spacious

Thinner walls mean the internal bathing space of a Clearwater bath is far more spacious than that of the same sized normal bath. For example a 1600mm Clearwater bath can give as much bathing space as a standard 1700mm bath. Due to the slimmer profile you can have the luxury of a freestanding bath, even in a small sized bathroom.

Clearwater baths are made so they sit on the floor, so they don't require feet under the bath. This makes these baths around 12cm deeper than acrylic or steel baths which require leg sets. So with no increase in the overall height, you get a much deeper bath for added luxury.

Underfloor Heating

Extra value, through quality

Raychem underfloor heating offers the ultimate comfort as it provides an even temperature throughout the room. Heat rises upwards from the floor through the area around your body, giving your body a feeling of natural warmth.

You can have a far better bathroom with little investment as these superior heating products are highly affordable. You can use as a primary heat source or in conjunction with radiators or towel warmers.

Superior quality products will provide you with extra value over time.

Raychem products are tough and highly durable, giving you long lasting use. This is of the greatest importance with underfloor heating. As the wire is buried in the floor it can be costly if maintenance is required.

T2 Quicknet Mats

These self adhesive mats have the underfloor heating wire pre-spaced out onto the mat. Mats can be rolled out over the desired area and wire can be detached from the mat to go around items such as the basin or WC.

Thermostat Control

A thermostat control is required to operate your underfloor heating. Choose from the options below.

Greenleaf Touch Screen Thermostat Control £207.31
Touch screen temperature control plus timer function programmable with four blocks in a day.

NRG-DM Thermostat Control £147.24
Fingertip temperature control with LED display and child lock. The thermostat can be set to either comfort or manual on/off

What size do I need?

Calculate the total floor area of your room in m², and deduct the area covered by the fittings (eg WC, bath, etc)

For T2 Quicknet mats select the first mat size smaller than this figure

For Cera Pro loose wire simply select the correct size for that floor area.

For larger spaces two T2 Quicknet or two CeraPro products can be added together in one installation.

Decorative Waterproof Wall Board

Why Nuance beats other wall covering options

Many luxurious finish options

Nuance boards mimic the look and texture of natural stone and marble for a truly special look.

Postformed (curved) edges

Edges and corners are finished off with a rounded end. This looks great and eliminates the needs for unsightly edging strips.

Easy cleaning and maintenance

With no joins or grout cleaning means no more than a simple wipe down.

Almost invisible joins

Nuance gives you one single surface with almost invisible joins. There is no need for grouting and unlike other walling systems Nuance doesn't require unsightly finishing strips.

100% Waterproof

Panels are made from a patented compound that is totally impervious to water. This is superior to other similar products that have a wood core and can swell if the surface is compromised.

Highly versatile

Nuance can be used on walls around the bathroom for waterproofing and decorative purposes.

- Shower enclosures
- Wetrooms
- Bath areas & as bath panels
- Behind basins & WC's

Highly cost effective

Comparing the cost of fitting Nuance boards against tiles, Nuance usually comes out as the winner. Not only on overall cost of the product but also on fitting costs.

Quick and easy installation

Nuance panels can be cut and installed in a matter of hours. This saves you money and time as the fitting will cost you less compared to equal coverage of tiles.

Matching laminate worktops

You can match your worktop to your wall panels with laminate worktops from Nuance.
